

AYUSH H MANE

+91 9535174767 • ayushhmane@gmail.com • LinkedIn • GitHub • Bengaluru, Karnataka

Summary

Aspiring Full-Stack Software Engineer with hands-on experience in designing and developing scalable web applications using React.js, Next.js, FastAPI, Node.js, Python, SQL, and modern development tools. Skilled in building responsive frontends, secure backend APIs, and database-driven applications while following clean coding practices. Experienced in integrating Machine Learning, Computer Vision, and NLP into real-world software solutions. A quick learner with strong analytical, leadership, and problem-solving abilities, passionate about building innovative products that create meaningful user impact.

Education

Acharya Institute of Technology, Bengaluru	2023–2027
B.E. in Artificial Intelligence & Machine Learning	CGPA: 7.0/10

Technical Skills

Programming: Python, JavaScript, SQL, C
Frontend: React.js, Next.js, HTML, CSS, Bootstrap
Backend: FastAPI, Node.js, Express.js, REST APIs
AI/ML: TensorFlow, PyTorch, Scikit-learn, OpenCV, Pandas, NumPy
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Xampp, VS Code, Tableau, Power BI, Vercel, Cursor, MCP, Razorpay

Experience

GlowLogics Solutions Pvt.Ltd. -AI Intern	Bengaluru
- Developed AI/ML solutions using Python-based frameworks. - Performed data preprocessing, model evaluation and optimization.	

Selected Projects

• VTON – Full-Stack Virtual Try-On Platform

Tech Stack: Python, FastAPI, React.js, OpenCV, XAMPP, REST APIs

Developed a full-stack AI-powered virtual try-on platform that enables users to visualize garments on uploaded images using computer vision and pose estimation. Built scalable RESTful APIs with FastAPI, integrated a responsive React.js frontend, and optimized image processing for a smooth user experience.

• Multilingual Sarcasm-Aware Toxicity Detection

Tech Stack: Python, PyTorch, DeBERTa, Streamlit, NLP

Built a multilingual NLP application to detect sarcasm and toxic content across multiple languages using the DeBERTa transformer model. Implemented text preprocessing, model inference, and a Streamlit-based interface for accurate real-time toxicity detection.

Leadership & Activities

Acharya Kannada Vedike - Head of Promotions & Content
Utkarsh-Abhinaya Theatre Club - National & State-level participant and winner
Events Coordinator - Srishti 2026 Innovation Exchange

Certifications

- Google Data Analytics Professional Certificate
- Career Essentials in Generative AI (Microsoft & LinkedIn)
- Anaconda Python for Data Science Professional Certificate
- Data Engineering Foundations Professional Certificate
